ENGLAND.

Report from London—Plague in Cape Colony, in Egypt, and on the steamship Laos between Port Said and Marseilles.

LONDON, ENGLAND, July 13, 1901.

SIR: I have the honor to report that the health of London and the United Kingdom remains satisfactory. The death rate in London further rose for the week ended July 6 to 14.4 per 1,000, but there were no deaths for any quarantinable disease. Two cases of smallpox were reported during the week. During the same period there was 1 death from smallpox in Glasgow.

The plague continues to subside in Cape Town, only a few cases having been reported in the past week. Cases, however, continue to occur at Port Elizabeth, and the number of points of infection is increasing. However, it is hoped that the last of the plague at the cape is near at hand.
